**Soft skills:** Communication, team collaboration, problem-solving.

### **PROJECTS**

## **5 Phut Thuoc Bai - Mobile Application**

( 01/2023 - 03/2023 )

Name of customer	TAM TRI LUC TRAINING JOINT STOCK COMPANY.
Description project	5 Phut Thuoc Bai application is an application that uses brain science methods to help users learn more effectively, especially in memorizing knowledge.
Team size	10 members.
Position	Quality Control.
Responsibilities	<ul> <li>Project analysis.</li> <li>Develop a test plan.</li> <li>Perform functional tests of the application.</li> <li>Detect and report errors to the development team.</li> <li>Suggest improvements to the application.</li> <li>Write instructions for use.</li> </ul>
Tech stack	<ul><li>Frontend: ReactJS.</li><li>Backend: C#.</li><li>Mobile: React Native.</li></ul>

## **Buzan Mindmap - Website Application**

( 03/2023 - 05/2023 )

Name of customer	TAM TRI LUC TRAINING JOINT STOCK COMPANY.
Description project	Buzan Mindmap is a powerful web application that provides mind mapping features that help users organize and present ideas visually.
Team size	10 members.
Position	Quality Control.
Responsibilities	<ul> <li>Designed and developed test cases and test scenarios based on requirements.</li> <li>Performed manual testing to ensure product quality.</li> <li>Identified, reported, and tracked defects through the testing process.</li> <li>Conducted integration testing and supported user acceptance testing (UAT).</li> </ul>
Tech stack	Frontend: ReactJS.     Backend: C#.

## **Hita Wallet - Mobile Application**

( 05/2023 - 08/2023 )

Name of customer	TAM TRI LUC TRAINING JOINT STOCK COMPANY.
Description project	Manage finances, salaries and commissions for Tam Tri Luc employees and distributors.
Team size	10 members.
Position	Quality Control.
Responsibilities	<ul> <li>Project analysis.</li> <li>Develop a test plan.</li> <li>Perform functional tests of the application.</li> <li>Detect and report errors to the development team.</li> </ul>

	<ul><li>Suggest improvements to the application.</li><li>Write instructions for use.</li></ul>
Tech stack	Backend: C#.     Mobile: React Native.

### **Ila Career - Career Website**

( 07/2023 - 09/2023 )

Name of customer	ILA VIETNAM LTD. CO.
Description project	Website recruiting English teachers for ILA VietNam.
Team size	4 members.
Position	Quality Control, BA
Responsibilities	BA: Gathered and analyzed client requirements to create business requirement documents (BRD) and system requirement specifications (SRS). Communicated requirements to the development team and ensured accurate implementation. Coordinated with stakeholders to address and resolve issues during the project lifecycle.  Quality Control: Designed and developed test cases and test scenarios based on requirements. Performed manual testing to ensure product quality. Identified, reported, and tracked defects through the testing process. Conducted integration testing and supported user acceptance testing (UAT).
Tech stack	Frontend: WordPress.     Backend: PHP.

# **ZiiP Bus - Mobile Application**

( 09/2023 - 12/2023 )

Name of customer	TAM TRI LUC TRAINING JOINT STOCK COMPANY.
Description project	ZiiP Bus is a mobile application to manage school buses. Using biometrics, NFC for attendance. Drivers track the map on the application of student pick-up and drop-off points.
Team size	4 members.
Position	Quality Control
Responsibilities	<ul> <li>Designed and developed test cases and test scenarios based on requirements.</li> <li>Performed manual and/or automated testing to ensure product quality.</li> <li>Tested APIs using tools such as Postman, JMeter, validating request/response data, status codes, and error handling.</li> <li>Executed database testing on SQL Server to validate data accuracy, integrity, and consistency.</li> <li>Wrote and executed SQL queries to verify business logic, check data migration, and validate reports.</li> <li>Identified, reported, and tracked defects through the testing process.</li> <li>Conducted integration testing and supported user acceptance testing (UAT).</li> </ul>
Tech stack	Frontend: ReacJS. Backend: Java.

# MatBao MBE - Mobile Application

# ( 03/2024 - 05/2024 )

Name of customer	MAT BAO WS JOINT STOCK COMPANY
Description project	A smart event management solution utilizing advanced AI and QR code technology for facial recognition-based check-ins.
Team size	10 members.
Position	Quality Control, Business Analyst (BA)
Responsibilities	BA: Gathered and analyzed client requirements to create business requirement documents (BRD) and system requirement specifications (SRS). Communicated requirements to the development team and ensured accurate implementation. Coordinated with stakeholders to address and resolve issues during the project lifecycle.
